## The Total Economic Impact™ Of VMware Cloud Foundation Operations

Through four customer interviews and data aggregation, Forrester concluded that VMware Cloud Foundation Operations has the following three-year financial impact.

## **FINANCIAL SUMMARY**

20% reduction in issue resolution time

**5X** reduction in relative downtime

100% reduction in last-minute hardware costs

"Infrastructure issues don't just go away, but the difference with **VMware Cloud Foundation** Operations is getting notified ahead of time instead of being woken up at night and having to worry about those fires without any predictability."

> Director of systems engineering, global financial services company

## **INVESTMENT OBJECTIVES**

Gain visibility into physical, virtual, and cloud infrastructure

Integrate into existing toolsets with minimal onboarding time

Improve scenario planning and intelligent issue remediation

FINANCIAL SUMMARY

\$15.1M Benefits (present value)

## **VOICE OF THE CUSTOMER**

"With more proactive infrastructure management, we've been able to reduce issues by 10% to 15%, time-to-issue-resolution by 20% to 30%, and overall operational workload by 35% to 40%. Managing our virtual and physical environments has become more effective and smoother."

Senior IT infrastructure analyst, South American education company
